3.) Please summarize why the case information from the Public Access to Court Electronic Records (PACER) service is needed and how it will be used. Also, please explain why an exemption from the courts identified is necessary. If you need more space, please provide in an attachment.

I am a full-time Professor of Finance. I have published a numerous studies concerning the Chapter 11 process, including issues related to the viability of firms upon exit from bankruptcy. These include my text book, "Corporate Financial Distress, Restructuring, and Bankruptcy: Analyze Leveraged Finance, Distressed Debt, and Bankruptcy (Wiley Finance)", used in a number of college courses, and numerous publications in academic journals, copies of which I can provide on request. Consistent with all of my prior work in this field, my fee exemption request is to obtain documents to support a defined research project, is intended for scholarly research, is limited in scope, and is not intended for redistribution on the internet or for commercial purposes. The attached page provides details for the project and documents needed.

4.) In support of this application, I affirm the following:

a) An exemption from the Judicial Conference's EPA Fee is necessary in order to avoid unreasonable burdens and to promote public access to information.

b) That the exemption will be for a definitive period of time:

c) I understand that this fee exemption will apply only to me, will be valid only for the purposes stated above, and will apply only to the electronic case files of the court(s) indicated above that are available through the PACER service.

d) I agree that any data received through this exemption will not be sold for profit, will not be transferred, will not be used for commercial purposes, and will not be redistributed via the Internet.

Declaration: I declare that all the above information is true and understand that a false statement may result in termination of my exempt access and an assessment of Electronic Public Access usage fees. (The box must be marked or your request will not be considered)

Request for PACER fee exemption.
Edith Hotchkiss

Details of academic research project and documents needed for data retrieval.

My current project looks sales of companies in Chapter 11 under Section 363 of the U.S. Bankruptcy Code, in particular those that have entered an asset purchase agreement or restructuring support agreement prior to filing. We have identified approximately

This request is an update to a prior request, for which I am providing better detail regarding our methodology and specific document needs.

The cases we will examine all involve larger businesses, so that even though numerous cases may be initially filed, we will only need to obtain documents for the single consolidated case (meaning that I will use the terms “case” and “firm” interchangeable when referring to the documents that provide the information we need to complete our study. We have identified approximately 400 cases of a sale of substantially all assets under Section 363.

Our study will look at the competitiveness of bidding in Chapter 11 auctions. We will use empirical measures including the number of bidders, type of bidders (financial buyers or other operating businesses), timing of the auction relative to filing, pre-filing marketing of the company, and other measures of the process. We will use an econometric model to relate the competitiveness of bidding to the recovery rates realized for the creditors in these cases.

The documents we need to retrieve specifically include:

- 1) the order confirming the plan, or, order to approve a conversion to Chapter 7 or dismissal ; this document is used to correctly verify the outcome of the case and description of the asset sale
- 2) the disclosure statement (if any), which provides further detail regarding the asset sale, and the use of proceeds to make distributions under a confirmed plan
- 3) the order approving the sale, which describes the bidding and auction (if held), and
- 4) the affidavit or declaration in support of first day motions, which describes the marketing of the assets before filing (if any) and the intention to either reorganize or conduct a sale, as well as the capital structure of the firm at the time of filing.

The length of these documents can vary significantly by case. To the extent possible, we have located these documents from public web sites of claims agents, to reduce as much as we can our need to obtain information from PACER; this leaves us with approximately 250 cases for which documents can only be obtained directly from PACER. Based on the cases we have examined from other sources, we have needed on average approximately 300 pages per case, due to the length of some documents such as the disclosure statement and first day declarations. At ten cents per page, the costs of using PACER to collect data are prohibitive as an academic researcher.
